Subject: FW: Oil and Gas Screening

Rob, I would love to participate in this and get a better sense of what Kristen is doing. I am available next Wed 3/27 or the following week as indicated on my Outlook calendar. If that doesn't work, don't sweat it, but if possible I'd like to join... thanks!

My calendar is up to date: Mondays, Tuesday, and Fridays work best for me. I'm available on the morning of march 26 or the following week I am available April 2 (except afternoon). I am also available April 8 and 9th.

I'm waiting on getting the reports from Greg, so it would probably be better to meet the week of April 1 or the following week after I have had a chance to look at the data.

Subject: Oil and Gas Screening

Hi Deb,

Ayn mentioned to us that you have asked Kristen Keteles to review the Pavillion data in relation to a series of screening levels. I'm beginning to work on reviewing the information we have on the waste pits in the Pavillion field. I'd like to sit down with you and Kristen to discuss what Kristen's work entails to see if there's any overlapping information that might help.

Could you let me know what times might work well for you guys in the next couple of weeks? I can be available anytime except 3/29, 4/1, and 4/10.

Thank you,

Rob
